

Custom-made Suspended Platforms

Sometimes a customised access solution is required for working safely at height. For this Altrex is also the right place. Altrex has a special department with specialists in custom solutions who develop, produce and deliver the optimal solution for working safely at height in close partnership with the client. Of course, other solutions can be realised. Altrex is keen to advise clients personally about the best and safest access solution which meets the applicable legislation and regulation. For safe assembly, experienced Altrex technicians are available.

Relax. It's an Altrex.
