

Wooden tower platforms

✓ Professional use

- Available in various lengths
- Suitable for the MiTOWER, RS TOWER 4 and RS TOWER 5
- Available with or without a trapdoor

Altrex wooden tower platforms: Extremely strong and of high quality

The high-quality wooden tower platforms of Altrex are extremely strong and safe at any height. The platforms for the standard rolling towers are available in three lengths: 1.85, 2.45 and 3.05 metres. In addition, we also supply special platforms for the MiTOWER and MiTOWER PLUS. That way, you will always have a suitable platform for your tower. Available with or without a trapdoor. The advantage of a trapdoor is that it is easier and safer to move your things upwards. It is also very handy during mounting and dismantling.

Made from extremely strong wood

Altrex wooden platforms are made from extremely strong and high-quality wood. That way, you will always stand safely at extreme heights.

Platform with trapdoor

The platforms with trapdoor are ideal for easily and safely moving products to the required height. It is also handy during mounting and dismantling the rolling tower.

Available in a multitude of lengths

The platforms are available in different lengths. Altrex markets tower platforms in various lengths enabling the supply of a suitable platform for all towers within the RS4 and RS5 series. The platforms are available in three lengths: 1.85, 2.45 and 3.05 metres. In addition, there are also platforms available for the MiTOWER and MiTOWER PLUS.
