

Tower wheels

✓ Professional use

- Available in three sizes (Ø200, Ø150 and Ø125 mm)
- Suitable for the RS4 and RS5
- Adjustable in height

Altrex tower wheels: All types and sizes available

Altrex tower wheels come in all types and sizes. For example, we supply wheels with diameters of Ø200, Ø150 and Ø125 mm. In addition, the tower wheels of the RS4 and RS5 have spindles to adjust them in height, making it easy to place the tower on uneven undergrounds. Our wheels are extremely suitable for the towers in the RS4 and RS5 series. Furthermore, all wheels in our product range have a double brake system. Adjust the height of the tower wheels in such a way that the tower is always spirit-level. Subsequently, activate the double brake for a safely accessible tower.

The wheels of the RS TOWER 5 series can be adjusted up to 25 centimetres. The wheels of the RS TOWER 4 series can be adjusted up to 18 centimetres. In addition, you can easily brake the wheels of the RS TOWER 5 series and they can be disconnected by the easy-to-use pedal control.

Adjustable in height

The tower can be adjusted in height by the spindles that are mounted on the wheels: Ideal for placing your tower on an uneven underground.

Double braked tower wheels

The Altrex range of products also provides adjustable wheels for additional safety. You decide how to set the tower wheels. Subsequently, activate the double brake and access the tower.

Various sizes

Within our product range, we supply three sizes of wheels: Ø200, Ø150 and Ø125 mm. There is always a suitable wheel for your tower.
