

Black Pro Leveler folding ladder

✓ Professional use

- For intensive, professional use
- Telescopic adjustments, ideal for uneven surfaces
- Stable due to flared beams
- Dirt-resistant coating

Black Pro Leveler. Telescopic folding ladder for the professional

The Black Pro Leveler is a telescopic folding ladder. The top quality black coating is attractive as well as dirt-resistant. You can use the folding ladder in A-position or in the ladder position. The ladder can be adjusted telescopically, so that you can use it easily on an uneven floor, e.g. in a stairwell. Furthermore, the fixed wheels allow you to easily move the folding ladder. Tackle any professional task with the Black Pro Leveler.

The horizontal standing surface with anti-slip profile provides comfort. With the flared beams, you are always safe and stable. The self-blocking hinge locks the ladder into any position. Guaranteed safety!

Adjustable feet

Each foot can be adjusted independently. Up to 18cm. The ladder is therefore perfect for use in a stairwell.

Multifunctional and telescopic

The Black Pro Leveler can easily be changed to another position. Also ideal on uneven floors due to the telescopic mechanism.

Stable and secure

Flared beams mean you are always sturdy and stable. No matter which position you use.

Compact and easy to store

When folded, the ladder takes up very little room. It will fit into any van. You can also transport it easily due to the supply wheels.

Multiple positions, different heights

Position the folding ladder in the desired position so that you can reach the height you need to complete your job.
