

Jumbo Step stepladder

✓ Professional use

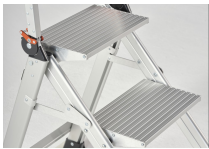

- Small but robust
- Extra-large steps, improved standing comfort
- With handy tool tray

Jumbo Step - Single-sided. The robust and user-friendly stepladder.

The Jumbo Step is a robust stepladder. Easy to use and offering optimum comfort. The steps are fitted with extra big steps with a rubber, anti-slip profile. So you'll always be comfortable. The steps gradually increase in height. This allows you to ascend and descend safely.

The safety guardrail gives you extra grip. Completed your work? Thanks to the optimised unlocking system, you clear away your ladder within minutes. Folded, the ladder hardly takes up any space and when you set it up, you always stand comfortably.

Optimum standing comfort

You'll stand comfortably on the Jumbo Step. This is due to the extra big steps that are finished with anti-slip rubber profiles.

Stable and secure

Large anti-slip feet provide reliable stability. Greater certainty, greater safety.

Safe and functional

The safety guardrail offers space for your tools. And you have additional grip once you stand on the top step.

EN 131
