- Easy assembly
- For domestic use

## Woodytrex Budget. Easy to fit loft ladder

The Woodytrex Budget is the easy to fit loft ladder. Handy, safe and durable. Behind the attic hatch there is a sturdy staircase that you can easily pull downwards. This neatly finished loft ladder is a godsend for every attic or loft.

We deliver the staircase fully assembled. You only have to install it. The box is neatly finished and equipped with a weather strip so that drafts and cold don't stand a chance. The treads are finished with an anti-slip profile. This makes it safe. The Woodytrex Budget gives you a complete loft ladder.

### Saving on heating costs

Drafts are a thing of the past. The Woodytrex Budget has a weather strip and an insulated hatch of 26 mm.

### Simple assembly

The loft ladder is delivered completely assembled. You only have to install it.

### No interference from tension springs

The tension springs between the box and the hatch are hidden neatly on the inside of the box. This way you are not bothered by it when you walk up the stairs.

## Product specifications

Item number	container size (m)	container height (cm)	max ceiling height (m)	turning circle	flap thickness (cm)	weight (kg)	EAN
